

DESIGNING DASHBOARDS

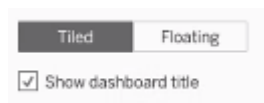

Size: automatic

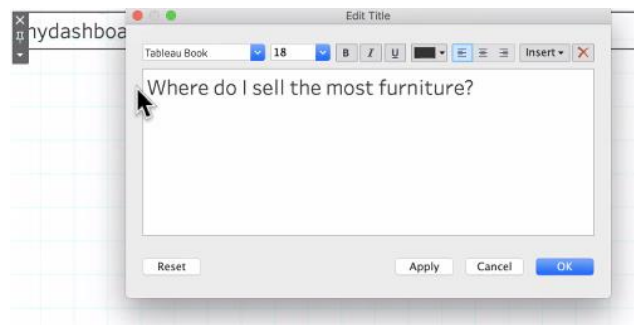

Layout: optional in case you know where it will be displayed

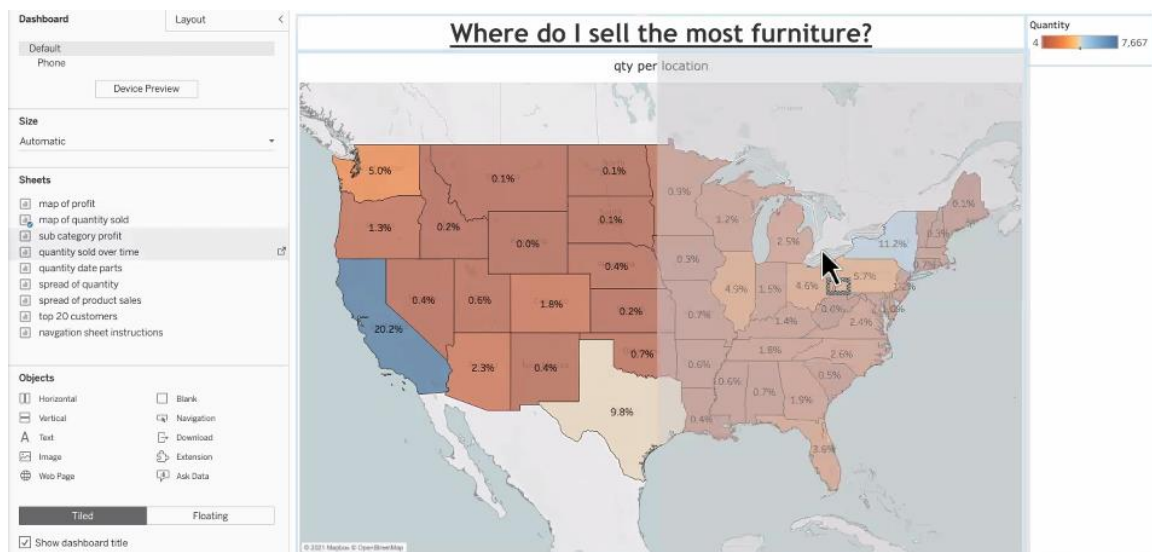

Title

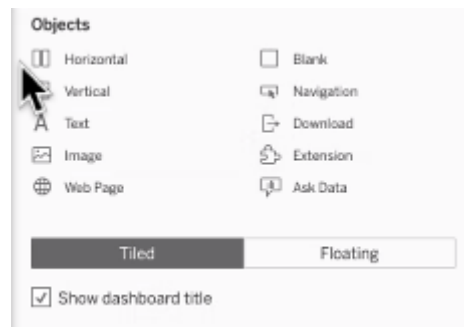

Tick the box and double click on the rectangle to add text.

Drag and drop the graphs:

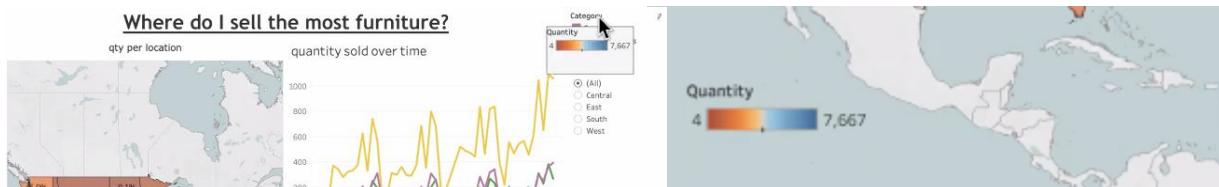

Objects section (bottom left side):

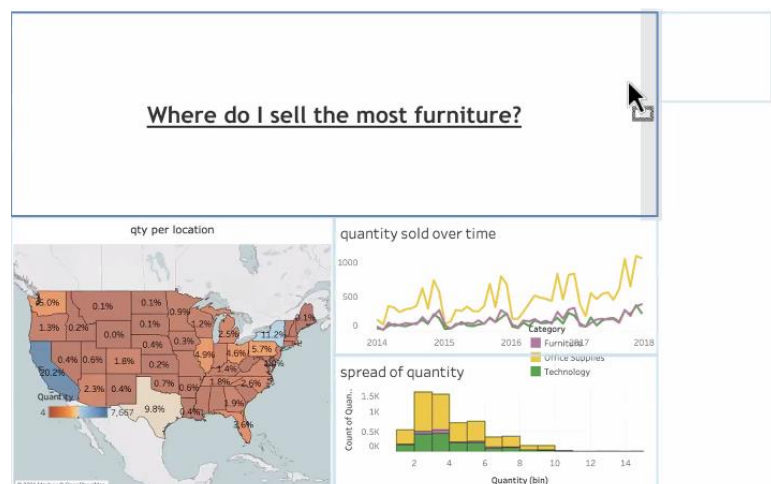

Sometimes layout is useful so you can have containers inside of containers:

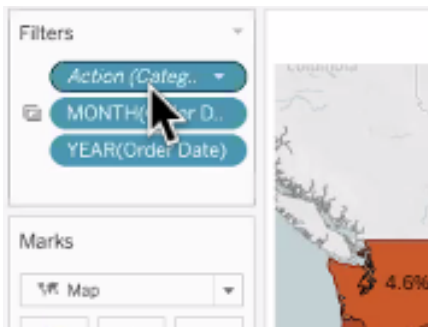

Tip: make legends floating to put them near to where you want them to be

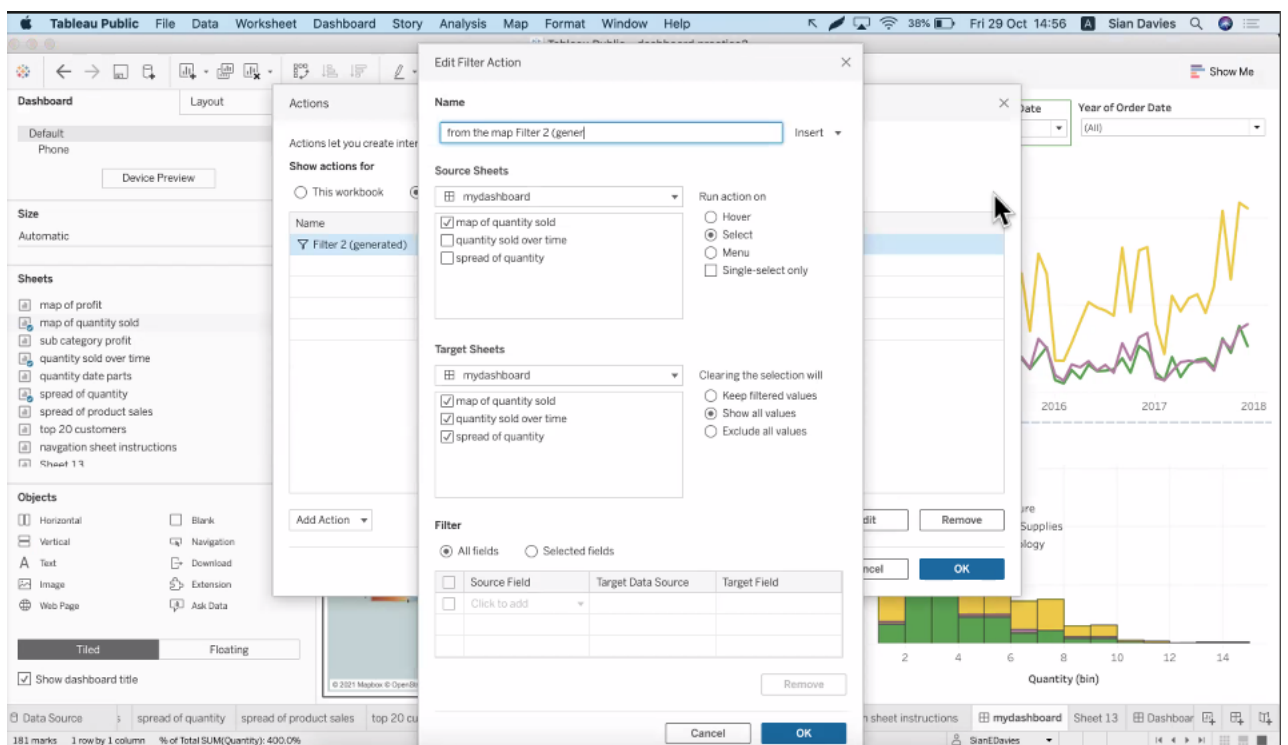

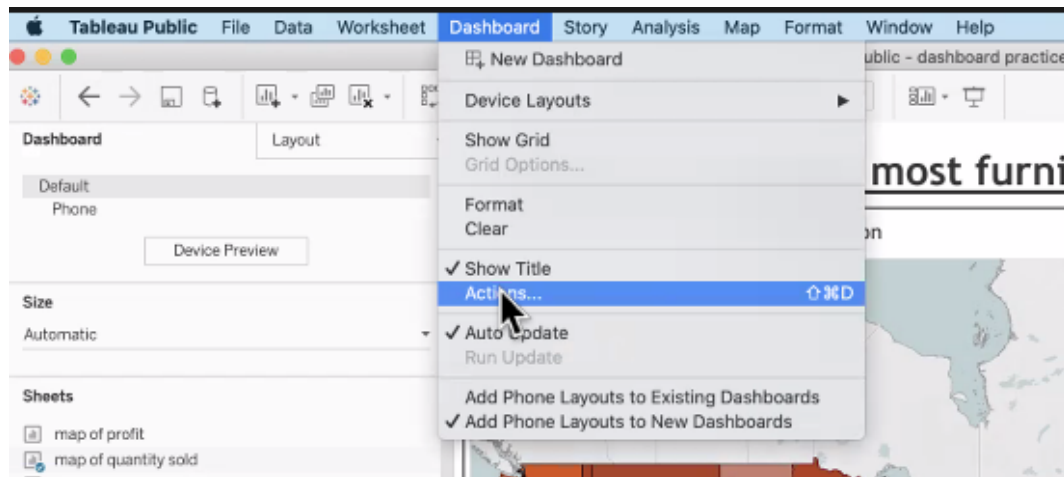

Adding a horizontal container and moving the title inside to have a different distribution, then adding the filters in there (move it to the corner until you see the blue line and drop it there):

Also if you generated a filter you should be able to find it in there:

Defining an action:

The image shows two overlapping dialog boxes from Tableau. The 'Actions' dialog is in the background, and the 'Edit Filter Action' dialog is in the foreground.
